\$50

GRACIOUS DONOR
\$25

Donations may be made for each meter rowed or by a flat donation, regardless of distance rowed. No minimum required.

Row For Humanity

The Oklahoma Crew Team and the members of Habitat for Humanity are joining forces to row a full hour on ergometers, indoor rowing machines. This is a highly physically and mentally challenging feat that each member will undertake.

We'll keep track of how far each rower has rowed using computers on the ergometer. Our goal for this first year is to row 300,000 meters and raise \$10,000!

Oklahoma Crew

A registered student organization at the University of Oklahoma

The Oklahoma Crew team competes against many Big 12 schools along with various other programs. As a club sport, Oklahoma Crew receives little or no school funding and must rely on generous donations.

Donations raised will be used toward the purchase and maintenance of new equipment, including new boats, oars, ergometers, and travel expenses for some of the out of state races.

This fall the team competed in the Head of the Oklahoma and the Wichita Frostbite. This spring the team will travel and compete in at least three sprint races.

Habitat for Humanity

The Campus Chapter of Habitat for Humanity is a student run affiliate of Habitat for Humanity International and works in Norman and Cleveland County. Earlier this year, the

first student funded and built home was completed and given to the Velasco family. In the wake of this success, the chapter hopes to quickly secure the funding for a second home.

With your help the chapter can maintain its pace and become a considerable force ensuring that each of Oklahoma's families has a safe, respectable home.
