

Summer Institute in Public Health Genomics: Translating Genomics into Policy and Practice

An introduction to public health genomics, emphasizing its translation to practice

- Learn how genomics relates to your work; no background in genetics required
- Design your own schedule with convenient 1- and 2-day sessions
- Enjoy reduced rates; scholarships also available

General Information

The Summer Institute will provide an introduction to several key areas broadly related to public health genomics. The Institute is geared to professionals interested in obtaining knowledge and skills for integrating genomics principles and applications into health practice, policy, and research.

Sessions

Session 1 Monday and Tuesday (June 14 and 15)

Option A: Policy and Health Economics in Public Health \$425

Option B: Genetic Epidemiology \$425

Session 2 Wednesday (June 16)

Standing Out From the Crowd: Issues and Implications Around Risk of Identifiability in Genomic Studies \$200

Session 3 Thursday and Friday (June 17 and 18)

Option A: Health Literacy, Genetic Literacy, & Genomic Information \$425

Option B: Epigenetics \$425

Registration

Register online at www.uwcgph.org for 1, 2, or all 3 sessions.

Fees include course materials, continental breakfast, lunch and refreshments.

Hosted by: The University of Washington Center for Genomics and Public Health

Funded in part by: The Centers for Disease Control and Prevention
