Metabolic Nutrition Program

About the Camp

Our model, research-based Metabolic Camp offers a unique opportunity for young women ages 12 and up with PKU or MSUD to live and learn together in a supportive camp environment.

Goals of the camp:

1. To teach the importance of nutrition and help the campers develop diet self-management skills.
2. To review the treatment recommendations of PKU and MSUD prior to and during pregnancy.
3. To create a place to share experiences and make new friends with other young women who have PKU or MSUD.
4. To research the impact of the above interventions on the transition to adulthood, pregnancy, quality of life, and overall health outcomes.

The camp program focuses on building social support through a variety of activities:

Nutrition Education
Cooking Classes
Discussion Groups
Cooperative Sports
Local Field Trips
And More!

The camp will be conducted for five consecutive days. Meals will be provided and supplemented with low protein foods. Registered dietitians will be present to assist at all meals.

Accommodations

The Metabolic Camp will be held on the campus of Emory University. Lounge, refrigerator and laundry facilities will be available on site. All participants will be responsible for their own transportation to and from camp.

Exhibits

Campers and their families are invited to visit exhibits during check-in on Monday, June 24, 2013 at the ATO and KA Houses at Emory University. The exhibitors will be medical food companies, modified low-protein food companies, and patient support organizations. Families will have a wonderful opportunity to interact with the representatives and to learn more about the products and services offered by these groups.

Faculty

There will be one faculty member and one assistant for every 5-7 campers. The faculty will be involved in helping campers with daily activities. In case of any medical emergency, we will use Children's Healthcare of Atlanta at Egleston or Emory University Hospital, where a medical geneticist is always on call.

Cost of Camp

\$375.00 per person

We rely on annual financial support from grants and donations, so we can offer you a camper registration fee of \$375.00 per person. This cost includes room, board, and all sponsored group activities. A **\$100.00 nonrefundable deposit is required** to hold a place for each camper. This fee will be applied towards the total \$375.00 camper registration fee. **Partial scholarships are available based on financial need.**

Deposit Deadline: **March 8, 2013**

Balance Deadline: **April 24, 2013**
