

Geospatial Summer Fellowship Program

Sponsored by Oklahoma NASA Space Grant & the Center for Spatial Analysis

Program: The Geospatial Summer Fellowship Program provides students with opportunities to explore the use of geospatial information science in higher education learning. This six week online program includes hands-on GIS and remote sensing training, webinars and a course project (estimated at approximately 96 hours). Upon completion students will receive a laptop and stipend.

Fellowships: Twelve fellowships valued at \$2000 will be competitively awarded to support student participation. One fellowship will be awarded to a student at each of eight Oklahoma NASA Space Grant Institutions. Four additional at-large fellows will be awarded from the pool of applicants to promote geospatial workforce development and diversity. Women and underrepresented minorities are encouraged to apply.

Instructor: Participants will study under the direction of Melissa Scott, Assistant Director of Research and Education at the Center for Spatial Analysis at the University of Oklahoma.

Eligibility:

Participants must:

- Be a US citizen
- Be classified as a junior as of spring semester 2016
- Major in a STEM discipline (science, technology, mathematics and engineering) OR science/math education
- Have a minimum 3.0 GPA
- Be a current student in good standing OR newly admitted for 2016 / 2017 to an Oklahoma NASA Space Grant Institution (OU, OSU, Southern Nazarene, Cameron, Langston, SOSU, SWOSU, ECU)
- Continue qualified enrollment for the 2016/2017 academic year (spring and summer 2016 graduates not eligible)

Application Deadline: May 6th

Selection & Announcement: May 9th

Program dates: June 1st – July 13th

Application & Information: Online at <http://csa.ou.edu/content/summer-fellowship>
