

University of California, Berkeley
Department of Molecular and Cell Biology
Biology of Cancer Search

The Department of Molecular and Cell Biology (MCB) is soliciting applications for a new faculty member studying the biology of cancer; this position is open at any level (tenure-track or tenured). Rank will be determined by qualifications and experience. Potential start date is July 1, 2017.

Please note that the deadline for this search has been extended to October 31, 2016. If you have already submitted an application you do not need to reapply.

We seek candidates whose research addresses molecular and cellular mechanisms related to in vivo cancer biology, with a primary focus on human cancer or mammalian models. Areas of interest include (but are not limited to) the genetics and epigenetics of cancer, cancer genomics, tumor-host interactions, tumor metastasis, tumor immunology, and mechanisms of tumor initiation and progression. The successful candidate will have the opportunity to provide leadership in the field of cancer biology at the university in the future. A Ph.D. and/or M.D. or equivalent degree in Molecular Biology or a related field is required at the time of application.

Application Procedure:

Applicants who are not currently tenured at an institute of higher education/ are not a senior independent investigator must complete an online application via the following link: <https://aprecruit.berkeley.edu/apply/JPF00822>. You must arrange to have three letters of reference submitted online. All letters will be treated as confidential per University of California policy and California state law. Please refer potential referees, including when letters are produced via a third party (i.e., dossier service or career center), to the UC Berkeley statement of confidentiality (<http://apo.berkeley.edu/evalltr.html>) prior to submitting their letters.

Applicants who are currently tenured at an institute of higher education/ are an independent investigator must complete an online application via the following link: <https://aprecruit.berkeley.edu/apply/JPF00823>. You must provide contact information for 3 - 5 referees. We will only contact your referees if you are a finalist for the position, and we will seek your permission before doing so.

All applications should include:

- Curriculum Vitae

Your most recently updated C.V.

- Summary of major research accomplishments

A summary of major research accomplishments (approximately 250 words)

- Ongoing and Planned Research Program

A summary of approximately 1,500 words of the applicant's ongoing and planned research program, plus up to one page of figures and a list of essential references.

- Publications List

Complete list of publications

- Significant Publication #1

In addition to your publication, provide a statement that begins with the manuscript title and author list and then summarizes (in approximately 300 words) the significance of the selected publication.

- Significant Publication #2

In addition to your publication, provide a statement that begins with the manuscript title and author list and then summarizes (in approximately 300 words) the significance of the selected publication.

- Significant Publication #3

In addition to your publication, provide a statement that begins with the manuscript title and author list and then summarizes (in approximately 300 words) the significance of the selected publication.

- Statement of Teaching

Summary of teaching interests, as well as any prior teaching and mentoring experience (approximately 500 words).

- Statement of Contributions to Diversity

Statement addressing past and/or potential contributions to diversity through research, teaching and/or service.

- Cover Letter (optional)

The final deadline for applications is October 31, 2016. To receive full consideration, please submit a completed application by this date. Please direct questions to MCBsearch.committee@berkeley.edu.

The Department of Molecular and Cell Biology, UC Berkeley, is committed to addressing the family needs of faculty, including dual career couples and single parents. The Department is interested in candidates who will contribute to diversity and equal opportunity in higher education through their teaching, research, and service. For information about potential relocation to Berkeley, or career needs of accompanying partners and spouses, please visit: <http://ofew.berkeley.edu/new-faculty>.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see: <http://policy.ucop.edu/doc/4000376/NondiscrimAffirmAct>.
