

Dear members of the NABI community,

On behalf of the American Society for Biochemistry and Molecular Biology, I'd like to invite you to submit an abstract for a special outreach-themed poster session that will be held during our [2017 annual meeting](#), which will take place April 22-26 in Chicago. We are looking for individuals, groups and organizations to share their stories about how they have gotten science into the public arena. Posters will be displayed as part of the ASBMB opening lecture, guaranteeing a large, captive audience. There is no abstract fee and registration to the full meeting is NOT required.

More information, including the submission form, can be found here: <http://www.asbmb.org/meeting2017/specialevents/outreachposters/>. I'd also like to request that you pass this information along to any colleagues who you think might be interested.

Please feel free to reach out to me with any questions.

Sincerely,

Geoff Hunt
