

National Weather Center Amateur Radio Operator Directory

Revised June 21, 2019

Courtesy of the National Weather Center Amateur Radio Club, WX5NWC

Foreword

This is a directory of Amateur Radio Operators or persons interested in Amateur Radio. The goal is to update this yearly or when substantial changes are made. Members are encouraged to recruit others for inclusion in this directory.

This document was begun by Doug Rhue, KB5VDX, now of NWS Southern Region HQ. Additions, corrections and related housekeeping should be directed to Peter Laws, N5UWY, via email at plaws@ou.edu. Suggestions on how to improve this directory are appreciated and should also be sent to Peter Laws.

Introduction

This directory currently contains the same listing organized and presented in three forms: 1) by name, 2) by call sign and 3) by organization. A suitable top margin is provided to allow for punching for inclusion into a binder.
