Boost Your Research and Scholarship Skills

A collaboration between Alabama College of Osteopathic Medicine, California Health Sciences University, Idaho College of Osteopathic Medicine, Kansas City University, Philadelphia College of Osteopathic Medicine, and Western University of Health Sciences.

Data, Plots, and Graphs: Oh My!
Wednesday, June 21, 2023 | 10:30 - 11:00 PST

But what does it mean?! It is very easy to mislead with pictures. In this talk, you will learn about some of the most common statistical plots, graphs, and the ways statistics lie!
Presented by:
Lisa A. Ennis, MA, MS, MPH

Embase for Everyone
Friday, June 30, 2023 | 12:00 - 12:30 PST

Join us for a brief review of Embase, a biomedical database focusing on clinical medicine, drugs and pharmacology, and basic sciences relevant to clinical medicine. Embase provides access to bibliographic citations for more than 8,500 biomedical journal articles from over 95 countries. Embase also contains over 3.6 million conference abstracts indexed from more than 11,000 conferences and full-text indexing of drug, disease, and medical device data. Embase allows you to build searches using the PICO framework suitable for systematic reviews or to quickly identify all synonyms for a subject for comprehensive retrieval of all related content.
Presented by:
Alexander Lyubechansky, MA, MLIS
University of Nevada, Reno - School of Medicine
