

# Boost Your Research and Scholarship Skills

A collaboration between California Health Sciences University, Kansas City University, Pacific Northwest University of Health Sciences, Philadelphia College of Osteopathic Medicine, University of Nevada, Reno, and the Western University of Health Sciences

## Health Informatics 101

**Tuesday, February 6, 2024 | 11:00 - 11:30 am PST**

Health informatics is the interdisciplinary study of information technology-based innovations in healthcare and encompasses areas such as health information management, research data analytics, and IT innovation. This session will explore the fundamentals of health informatics, highlighting its significance to the healthcare field and recent trends and developments in health informatics.

Presented by:

Megan Benfield, MLIS

Pacific Northwest University of Health Sciences

## Making Use of Embase Tools: PV Wizard and Medical Device

**Thursday, February 29, 2024 | 10:30 - 11:00 am PST**

Join us to learn about two very useful Embase tools. The PV Wizard enables you to create pharmacovigilance (PV) and literature monitoring queries. The Medical Device search allows you to build and run a comprehensive search of a wide range of medical devices.

Presented by:

Alexander Lyubechansky, MA, MLIS

University of Nevada, Reno - School of Medicine
